DETAILED ACTION

Response to Amendment

1. This action is in response to the communication filed on February 22, 2005.
2. Claims 1-17 are pending in this action. Claims 1, 3, 5, 9, 10, 12 and 14 have been amended. Claims 18-80 have been canceled.

3. Claims 1-17 are allowed over the prior art of record.
4. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or fairly suggest the claimed combinations of features. The prior art of record particularly fails to teach or fairly suggest, a bottom-up left-corner check is performed on a predicted incomplete edge, if successful then perform a top-down left-corner check on the mother of the propose incomplete edge, otherwise omitting the proposed incomplete edge from the chart, in combination with other claimed features.

Regarding the prior art of record, it is well-known in the art that "top-down" and "bottom-up" analysis separately on a generated proposed incomplete edge of a received input text. However, the prior art of record particularly fails to teach or fairly suggest, a bottom-up left-corner check is performed on a predicted incomplete edge, if successful then perform a top-down left-corner check on the mother of the propose

incomplete edge, otherwise omitting the proposed incomplete edge from the chart, in combination with other claimed features.
